**A Valued Partnership...  
Since 1956**

The Needham Exchange Club is dedicated and committed to helping others. All of the proceeds from the Needham Exchange Club fund raisers are donated to various non-profits and all of their events and special projects are intended to reach and touch every member of the community.

The Charles River Center and the Needham Exchange Club formed a partnership in 1956 that has continued to this day. Through volunteerism, fund-raising efforts, and representation on the Charles River Board of Directors, members of the Exchange Club have helped shape, guide, and ensure the success of all Charles River programs and services.

Today, the Charles River Center provides counseling, housing, employment, therapeutic day services and recreational programs to more than 900 children and adults with developmental disabilities.

Your generous participation will help provide grants for families to participate in social recreational programs at the Charles River Center.

*A leader in supporting people with developmental disabilities*
